**Questions addressed live across 11 sessions, not included

* 15 Additional Participants per Session

Session Ratings (10 being the highest)

Participants' Overall Feedback

8.7/10

Effectiveness of e-School as rated by Participants

“CE is one of the area of expertise of Dr. Prasad Modak. I suggest he should also conduct similar webinars on topics like **environmental modeling to pollution control technologies**. If I had not registered and participated, I would have missed something which I would have always repented “

“I appreciate very much the **knowledge and valuable information** you have provided through a series of presentations. I learn a lot from the course both in term of **presenter's huge experiences** and the **methodology** through e-platform. They are real professionals and **high rank experts in CE**”

“Sir, thanks for providing such a **wonderful platform to understand CE** in detail. **Kudos to all the panelist** for presenting such great and **informative** sessions.”

“This is **one of the best training course** I have ever been, both in terms of technical sessions and also the way it has been **moderated and structured**. Thank you to the team. It is a request to **continue with e-learning courses** than physical workshops. Thank you once again.”

“**360-degree coverage** in 11 sessions , really great sessions”

Together, we donated **INR 80,000** between two NGOs towards supporting **50 women** with essentials and **133 waste pickers** with Personal Protective Equipment (PPE) for a period of 1 month

Participants' Experience

Stree Mukti Sanghatana
(Women's Liberation Organization)

[Stree Mukti Sanghatana](#)

[Kashtakari Panchayat](#)

Through this e-School, we avoided ~6 tonnes of CO₂ emissions

International e-School conducted by **Ekonnnect Knowledge Foundation**

with support from

Indian Institute of Technology, Bombay

National Institute of Industrial Engineering (NITIE) and

Bombay Chamber of Commerce and Industry (BCCI)
