

Shabbi Luthra

Shabbi Luthra has worked for over two decades in various teaching and leadership roles in the field of educational technology in international schools. Her work is focused on the development of stakeholder ownership of technology integration, and on the creation of technology-enriched learning environments that support students' acquisition of skills for their future. She is currently the Director of Research and Development, and Technology at the American School of Bombay, and is leading educators to study, design, prototype, and research new designs of schooling and sustainable innovation for relevant learning.
